Have you heard of these websites?

MangaFox MangaHere MangaReader

...and many others.

These online manga readers are awful.
You shouldn't use them.

There's not enough room here to explain why,
so I'll just tell you the superior alternative:

Batoto.com

Of course, you're always welcome to download directly from Mixim Studios @ http://mixim.co.cc/

That is all I wanted to say. Thanks for reading.
Enjoy the rest of this chapter of *Ashita Dorobou*.

By the way, this page really was left blank in the book. You're not missing out on anything

I decided to bring her back to my apartment first and ask questions later
Out from the giant UFO above Tokyo came...
My ex from nine years ago...
Tendou Ashita!
But she is indeed Ashita...
No matter how you look at it, she just doesn't seem to be human! Not with those superpowers of here!
Just as I was getting frustrated over this question I stumbled upon this website!
Who exactly is she?

WHAT...
WHAT KIND OF SCREWY WEBSITE IS THIS!?

That's a lot of hits!
But I still want to see!
Though this site is weird as hell. Could it be trying to cash in on the frenzy around this UFO thing?
It's probably just a load of crap inside...

VOLUME ONE * ACT FIVE

Barely conscious in the doorway you stand.
Your eyes are fighting sleep while your mouth makes your demands.
You laugh at every word, trying hard to be cute.
I almost feel sorry for what I'm gonna do.
And your hair smells of smoke.
Who will cast the first stone?
You can sin or spend the night all alone.
